Sunday morning has a couple of options. Dive Fly Point on the high tide. See pineapple fish hiding under the ledges at 12m and be amazed by the sponge gardens, home to nudibranchs, sea hares, octopus, wobbegong sharks—the list is endless. Or.....

Dive Halifax Park, one of the best shore dives in Australia, on the high tide. See the numerous underwater bombies surrounded by prolific fish life. Soft corals and sponges cover the sloping bottom with max depth of 18 to 28m depending on cert level.
